AN AUTONOMOUS PROTECTORATE.

A late Associated Press dispatch from Manila concerning the overtures of the Filipino Commissioners which were in the American lines seeking terms of peace, says in effect that the burden of the talk of the Filipinos is autonomy, and that the kind they wish for would be but little different from the scheme of an American protectorate talked of before the war.

It is really the honest desire of the Filipinos, there would seem to be no good reason why hostilities should not cease, or at least an armistice ordered until the sincerity of the Commissioners and the people can be ascertained. What more could the United States want than a protectorate over such a locally autonomous government as the inhabitants of the Philippines may see fit to establish under its supervision and guidance? Certainly such arrangements would satisfy the claims of responsibility upon the part of the United States for the establishment of a stable government in the Philippines, in place of the government rightfully destroyed by our navy and army. Of course the so-called Filipino government would not be recognized. But if the pledge of the United States to establish in the Philippines a government that would enjoy autonomy under an American protectorate, would be sufficient to end the war, that pledge, in our opinion, should be forthcoming.

A protectorate over the Philippines is the solution of the affair that will best meet the requirements of the situation from the view point of the United States, anyway; then why withhold such a pledge? The retention of the sovereignty of the United States over the Philippines means serious Constitutional difficulties and complications in dealing with the islands in any manner that would be satisfactory to the American people. It would give us the enjoyment of all commercial and military rights and privileges of complete sovereignty, without its attending difficulties. If we are to keep control of the islands we want to treat them as colonies and not as integral parts of our territory, that may at some time seek admission to the Union, and the Constitution makes no provision for colonies.

The proclamation of the President's Philippine Commission, issued on the 22nd inst. in Manila, promising a certain form of government, relates only to the period of military rule that will prevail pending action by Congress. Of course, prior to the establishment of the autonomous government which the Filipinos desire, the United States will have to be responsible for the maintenance of order in the Philippines, the same as in Cuba.

When we consider the hostile attitude of the Harrison and Altgeld forces who will participate in the Democratic banquet at St. Louis to-morrow night, the dictates of prudence would seem to suggest that the affair be held in two halls.—San Francisco Post.

More than fifty halls would be required to accommodate the different factions of the Republican party, to say nothing of the hundreds of discordant elements. Even Nevada would require at least half a dozen to insure a harmonious feed.

THE JOURNAL is grieved at the local discord in the Republican party, as manifested in Dr. Patterson's card and a companion editorial in last evening's Gazette. Better slide over into the Democratic party, gentlemen, where all is peace, harmony and good will to all who endorse the Chicago platform of 1896.

As the suffering Cuban patriots would not accept the \$3,000,000 offered them by the United States government why not devote it to better use? We would suggest to Uncle Sam that he place the rejected donation in the Internal Improvement Fund to the credit of the State of Nevada.

THE opposition in England to Sunday newspapers has grown so strong that one of the largest, the London Daily Mail, has suspended its Sunday issue. Fancy Renoites with no Sunday morning JOURNAL to peruse. They wouldn't know what church to go to, nor at what time to go to it.

"Why is it," asked an American of a Filipino, "that Aguinaldo persists in refusing to acknowledge the authority of the United States?" "Because," replied the Filipino, "he thinks Uncle Sam paid that \$20,000,000 to the wrong party."

CONSIDERABLE OF A HUMBUG.

What the United States should urge upon the peace conference at the Hague is the exemption of private property from confiscation on seas, as it is now exempt on land. There should of course be exceptions to the general rule, as in case of ships trying to enter or leave blockaded ports, but in the main the code of international morals on shipboard should be the same as the one enforced on shore. If the Conference merely agrees upon a plan regulating the distribution of prize money, as the dispatches seem to indicate, it may as well leave the sea matters alone. As long as private property on the sea may be confiscated by the ships of a nation hostile to the one to whom the owner of the property owes allegiance, it matters little who profits by the seizure. The sailors in the ship making the capture may as well have the benefit as any one else.

It is easy enough to understand why Russia should wish to preserve the law as it now stands, so that in case of war with Great Britain she may prey upon the latter's commerce, but there is no reason why Russia should be allowed wholly to dominate the conference, and the United States and Great Britain should work with determination together to exempt private property at sea from capture by an enemy. Russia was the instigator of the conference in the first place, in the alleged interests of peace when she was never more active in making preparations for war, and has evidently been "playing possum" from the beginning. The conference, in our opinion, is considerable of a humbug, anyhow, and unless the United States and Great Britain keep weather eyes out they are liable to get the worst of it.

GIVE Nevada an honest and economical State government, retire the political boss, and there will be no obstruction in her road to prosperity. She has plenty of fertile lands and minerals and too much Southern Pacific politics.

ALGER wants to be a United States senator. What a fine quartet Alger, Burns, Platt and Hanna would make!—Silver State.

Why not add Stewart and make it a quintet of daisies?

A LARGE MINING DEAL.

The Silver Peak Property Reported to be Sold.

A PRINCELY CONSIDERATION.

Work Will Be Resumed on a Big Scale—Railroad Extension.

Meager reports were received by the JOURNAL yesterday of a gigantic mining deal consummated the day previous.

The Silver Peak property, fifty miles from Candelaria, in Esmeralda county, is reported to have been sold for a consideration in the neighborhood of \$1,000,000. It has not been heard who the purchasers are other than that they are "eastern capitalists."

This vast property consists of about two hundred mining claims on a number of lodes of gold and silver ore. They were discovered in the early days and extensively worked, at one time upwards of three hundred men being employed.

Litigation ensued, and, despite the richness of the mines, financial complications resulted in the works being shut down with a half million dollar plaster upon them.

For the past four or five years only watchmen have kept the once bustling camp from being deserted, except for a time when tailings were being worked by the cyanide process.

Now new life will come to Silver Peak. The new owners will shortly begin work on an immense scale. Enough ore to keep the stamps running for fifty years is in sight.

It is also rumored that the Carson & Colorado Railroad will be extended from Candelaria to the mines.

Announcement.
James P. Hixson, representing the well-known fine merchant tailoring establishment of J. Edlin, San Francisco, has arrived and will remain a few days at the Arcade Hotel, where he has an exhibition a full line of sample goods for gentlemen's wear, suitable for the present and coming season. Those wishing first-class custom made clothing will do well to give a call. He is the only practical cutter who has taken diplomas in the principal cities in the East for correct measuring, skillful labor and correct fit, who is soliciting orders. There are a great many adventurers who are not tailors or cutters who do not represent a responsible house, who cannot take a correct measure, subjecting the people to great annoyance and loss. Hoping the public will encourage a scientific man to do their work, Mr. Hixson is recommended.

No Right to Ugliness.
The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good looking, charming woman of a run-down invalid. Only 50 cents at S. J. Hodgkinson's drug store.

Children Entertained.
The pupils of the fourth and fifth grades gave a pleasant entertainment yesterday afternoon in the public school building. A number of parents and other guests were present. Beside concert singing and other exercises, the following children gave individual recitations: Edith McBride, Florence Moler, Carl Martin, Everett Cheney, Roy Sedgwick, Scott Wadsworth, Lola Stoddard, May Julian and Stanley Palmer.

A Walking Dictionary.
Hon. M. G. Foster, the well known printer and ex-legislator from Eureka, came in from the south yesterday and will remain a few days in Reno. In addition to his other excellent qualities, Mike is the champion orthographer of Nevada. He is a complete walking dictionary, and the JOURNAL scribe will back him to "spell down" any school-master, editor, or typographical professor in the State.

Memorial Day.
Memorial Day will be properly observed by O. M. Mitchell Post No. 69, G. A. R. The post is making every arrangement necessary to a proper observance of the day. Committees are now at work on the program. The post would be glad to have all fraternal societies and citizens generally join with them in assisting to decorate the graves.

ALFRED NELSON.

Activity in Southern Mines.
W. F. Sicksle, an Oakland business man, who arrived yesterday from the southwestern part of Nevada, brings news confirming the report of the sale of the Silver Peak mines. He reports great activity in mining. He says:

"Near Sodaville a number of newly opened gold, silver and copper properties are being developed. Siegel, Cooper & Co. of Chicago are employing thirty-five men on two promising ledges. Their superintendent, Mr. Murphy, is now in Salt Lake examining the smelters there, with a view to erecting reduction works at the mines under his charge."

The Up-River Enterprise.
D. M. Dyart, Superintendent of the National Ice Company, spent yesterday in Reno. He reports the Floriston Paper Company as completing preliminary arrangements for erecting their extensive plant. Surveys have been made and work will begin Monday on a spur track to convey materials to the site. The main building will be 250x70 feet and two stories in height. The wood used for paper pulp making will be pine, fir, tamarack and cottonwood.

A Good Assay.
The Copper King and Copper Queen properties north of town are showing up well. Mr. Van Meter received an assay the other day which returned a trifle over 25 per cent in copper. No tests were made for gold and silver although the rock contains both. The ore was taken from a shaft. A tunnel is being run to cut the ledge.

Plenty of Time.
The Gazette editor is a model of frankness and candor. He says under Democratic rule he was so busily employed that he had no time to devote to card playing, but under Mr. McKinley's administration, he has plenty of it to devote to the countless game of solitaire. There are hundreds of thousands of people in the United States in the same fix.

To Whom It May Concern.
I have this day appointed O. A. Scott Sheep Inspector for Fish Springs precinct with full power to act as such officer, as provided by law.

His Life Was Saved.
Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo. lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave relief.
